

Quality and Environmental Policy

WITH QUALITY FOR OUR ENVIRONMENT !

The core activity of **ECSERI Kft.** is the manufacture and forming of high-pressure aluminum castings. The Company is wholly Hungarian owned. We predominantly manufacture for export, supplying parts to worldwide well-known and recognized products of renowned multinational companies. Considering economic and environmental aspects the Company declares its **commitment** to environment protection and quality, which are considered to be the determining factors of its operation.

The management of the Company commits itself to the development, introduction, maintenance and continuous improvement of quality and environment-focused approach at Cegléd1, Cegléd2 and Szolnok premises of **ECSERI Kft.** Our aim is to create a corporate culture, where quality and environment awareness and efforts made for environment protection characterize all employees, suppliers and subcontractors of **ECSERI Kft.** By effectively operating our quality and environmental management system our aim is to strengthen satisfaction of our existing customers and at the same time to reduce the potential for environmental risks and to gain new market areas.

Basic principles of operation of ECSERI Kft.:

The satisfaction of our Customers and Partners is the guarantee of our safety and success.

OUR DRIVING FORCE IS QUALITY!

Contentment of our environment is the security of our children.

WE BORROW THE ENVIRONMENT FROM OUR GRAND CHILDREN!

The aim of our Company is to satisfy on high level the expressed and expected needs of our Customers and Partners,

and

to keep our environmental pressure on a level that complies with the European standards, the Hungarian legislation and meets the expressed and expected needs of our environment.

In order to achieve our goals ECSERI Kft. undertakes:

- to keep in mind meeting the **demands and expectations** of our **Customers, interested partners and the environment** through efficient operation and continuous improvement of IATF 16949 and ISO 14001 quality and environment management systems,
- we produce our castings by developing our business policy, business strategy and product structure taking into account the **opinions of our customers** and the expected needs of our environment, taking a risk-based approach and applying **0 defect strategy**,
- during our operation by showing law-binding behaviour we continuously follow the national and international general and environmental laws and regulations applicable to **ECSERI Kft.** and we strive to comply with them in every respect,

- we adhere to the principles set out in our Code of Conduct and also that of equal treatment
- we make our employees, suppliers, subcontractors and partners familiar with our **Quality and Environmental Policy** developed with collective thinking,

- we ensure active business, technical, quality and environmental **internal and external information flow** between the interested parties,
- **with regular trainings** we improve **quality and environment-conscious** approach, attitude and professional skills of the employees of **ECSERI Kft.**,
- we expect from all our employees that they understand, accept and continuously apply this approach during their work, proving by this the **commitment** to quality, to the environment and to our Company,
- based on quality requirements and environmental factors we determine our general and specific **quality and environmental goals from sourcing aluminum raw materials to the final disposal**, and we give preference to companies who are ISO 9001 and ISO 14001 certified
- we implement our **targets** formulated based on our **objectives** through detailed, broken down **programs**,
- in technological development we give preference to modern, **environment-friendly casting, machining and cutting technologies**,
- we ensure the highest possible **own recycling of casting technology wastes and scrap castings** produced during the manufacturing process,
- we operate our processes with the **lowest possible environmental pressure** and **we expect the same from our subcontractors** when they are doing work in our premises,
- we **consider the likelihood** of events with unexpected environmental impacts **and reduce this by planning and controlling our processes.**

The Quality and Environmental Policy of ECSERI Kft. is implemented through the operation of quality and environmental management system.
